

PA-M Class A Power Amplifier

PA-M is a dual mono pure Class A power amplifier, using high-power toroidal transformer power supply.

- Dual mono design
- Class A
- High-power toroidal transformer

Technical Specifications:

- Class A power output: 20W×2 (8Ω)
- Frequency response: 10Hz—100KHz (±1.5dB)
- THD: ≤0.03%
- SNR: ≥100dB (A weighting)
- Input sensitivity: 1.2V
- Input impedance: 47KΩ
- Static power consumption: 130W
- Dimensions (W×H×D): 430mm×118mm×445mm
- Net weight: 18.5Kg
