

Customize your own roof-raising VE Series System

No one knows your audio tastes better than you do. That's why the Cerwin-Vega VE Series offers an affordable selection of customizable components to let you build the sound system of your dreams.

Out of many, one powerful sound

Each element is designed to integrate easily with the rest, using 5-way binding posts for fast, simple hook-up. Ferro-fluid-cooled 1 $\frac{1}{4}$ -inch tweeters with PTC Protection deliver shimmering, sparkling highs while the 5 $\frac{1}{4}$ -inch midrange driver provides excellent reproduction of intimate vocals, screaming guitars, wailing sax, booming kick drums, exploding buildings, and screeching tires, all with outstanding definition. The Cerwin-Vega VE Series. Now that sounds good.

CERWIN-VEGA!
VE Series

All those in favor of more volume, raise your roof.

The VE Series

Serious sound. Whether you're listening to your favorite tunes, watching a new DVD, or following the big game, the quality of your experience is defined by sound. Cerwin-Vega understands this...we've been a worldwide leader in loudspeaker design for over 50 years! And now, with the new VE Series, we bring you our legendary power and excellent sound quality, all at an unbelievably affordable price. If you're putting together your dream sound system for home, office, dorm room, or other environment, there's no need to compromise your expectations just to save a few bucks. Instead, do it right – do it with the Cerwin-Vega VE Series!

Choose your weapons from six VE Series models

No single speaker configuration is right for all situations. Depending on the size of the room as well as your tastes in music and movies, you need a loudspeaker setup designed to meet your specific audio needs, while working together as a seamless system. The VE Series makes it easy for you to customize your own perfect sound system, ideal for your personal listening choices.

Loud or quiet, the bass remains the same

You don't have to turn your VE Series speakers all the way up to experience serious bass. The 3-way VE Series floorstanding models and subwoofers use our legendary Cerwin-Vega technology to deliver great bass frequency output even at lower listening levels, while seriously rattling windows when it's time to get loud!

Get as loud as you want with Cerwin-Vega power!

While even the smallest VE Series speaker offers more power handling than its size would imply, the larger models kick out up to a full 400 watts. There's no better way to rock the block at your next party than by cranking up your new Cerwin-Vega VEs.

Black finish fits your style

Contemporary and unobtrusive, the VE Series will look great in your home or office, blending effortlessly with any aesthetic style. And don't be fooled by the refined speaker grille. Pop it off and you'll see that signature, red Cerwin-Vega power.

Hang on tight: VE-8F Floorstanding

Perfect for smaller spaces, or as the left/right speakers in your home theatre system, this 2-way design with 1 1/4-inch treated silver mylar tweeter delivers terrific definition and acoustic clarity.

- Cast frame woofer with Vintage red surround
- 1%, Ferro-fluid cooled mylar tweeter in new waveguide faceplate
- Legendary CV Bass-reflex design in sleek, mini tower design

The real roof raisers: VE-12F and VE-15F Floorstanding

These larger, 3-way designs with Bass Reflex and 12-inch and 15-inch woofers, respectively, kick out the high volume and articulated bass that have made Cerwin-Vega famous. They're perfect for everything from the tight definition of mid- and high-frequency rock and jazz to the deep bass of hip-hop and R&B.

- Cast frame woofer with Vintage red surround
- 1%, Ferro-fluid cooled tweeter in new waveguide faceplate
- Up to 300W power handling
- Cast frame woofer with Vintage red surround
- 1%, Ferro-fluid cooled tweeter in new waveguide faceplate
- Up to 400W power handling

Small but mighty: VE-5M Bookshelf/Satellite

The VE Series' smallest 2-way family member packs a serious punch with a 5 1/4-inch woofer providing 125W power handling from 60 Hz to 20 kHz, and 89 dB SPL (1 watt/1 meter) sensitivity.

- Bass-reflex cabinet with video shielding
- Exclusive Low Mass Treated Cones
- 1-inch balanced dome Ferro-fluid cooled tweeter and PTC Tweeter Protection

Coming straight at you: VE-5C Center Channel

The most crucial element in any home theatre system, the VE Series 2-way Center Channel delivers 150W of power handling from 60 Hz to 20 kHz for precise dialogue reproduction.

- Bass-reflex cabinet in compact design
- Voice-matched and video shielded
- 1%, Ferro-fluid cooled mylar tweeter in new waveguide faceplate

Get ready to rumble: VE-28S Subwoofer

For music and movies, the subwoofer is the component of your system that ties everything together, with the low-frequency content normal loudspeakers can't reproduce.

- Dual 8% cast frame woofers with Vintage red surrounds
- Legendary CV Bass-reflex in sleek, mini tower design
- 120W high efficiency design amplifier
